In the annals of human history, the role of the executioner has always been shrouded in mystery and controversy. These individuals, tasked with carrying out the ultimate punishment, have borne witness to unspeakable horrors and grappled with the profound moral implications of their actions.

No one knows this better than Chavoret Jaruboon, Thailand's last prison executioner. For over two decades, Jaruboon was responsible for administering the death penalty to hundreds of convicted criminals. His chilling memoirs, published under the title "The Last Executioner," provide a rare and deeply disturbing glimpse into the world of capital punishment and the profound toll it takes on those involved.

Jaruboon's journey began in the poverty-stricken streets of Bangkok. As a young man, he was drawn to the allure of a government job and ended up joining the prison service. Little did he know that fate had a grim path in store for him.

After serving as a prison guard for several years, Jaruboon was approached by his superiors and offered the position of executioner. At first, he was horrified and refused. But the financial pressures of supporting his family proved too great, and he reluctantly accepted.

Thus began Jaruboon's macabre career. He witnessed his first execution in 1981, and over the next 23 years, he would go on to administer the death penalty to countless prisoners. The methods of execution varied, from lethal injection to hanging and firing squad, but the results were always the same – a swift and merciless end.

Jaruboon's memoirs are filled with vivid and haunting accounts of the executions he carried out. He describes the condemned prisoners' final moments, their expressions of fear and resignation, and the chilling silence that followed the fatal blow.

As the years went by, the weight of his actions began to take its toll on Jaruboon. He developed nightmares and flashbacks, and he became increasingly isolated from his family and friends. The guilt and shame he felt gnawed at his conscience, and he began to question the morality of the death penalty.

In 2004, Thailand abolished the death penalty for drug offenses. This decision was a major turning point in Jaruboon's life. He had always believed that the death penalty was a necessary evil, but now he realized that it was a cruel and barbaric practice that had no place in a civilized society.

Jaruboon retired from the prison service in 2006, and he has since dedicated his life to advocating for the abolition of the death penalty worldwide. He travels the world, sharing his story and speaking out against capital punishment.

Chavoret Jaruboon's memoirs are a powerful and thought-provoking read that offers a unique perspective on the death penalty. They are a haunting reminder of the human suffering and injustice that can result from this archaic practice.

Today, Jaruboon is a grandfather, and he says that he is at peace with his past. He believes that he has redeemed himself for his actions by working to end capital punishment. He is a living example of the transformative

power of forgiveness and redemption, and his story is a beacon of hope in the fight to abolish the death penalty around the world.
