- * Scientific and common names
- * Physical characteristics, including size, shape, bark, and foliage
- * Detailed descriptions of flowers, fruits, and seeds
- * Distribution maps indicating geographic range within the Pacific Northwest

Expert Authorship

This field guide was meticulously compiled by two renowned experts: David B. Stang, a botanist and educator, and James W. Liston, a photographer and naturalist. Their combined knowledge and experience ensure the accuracy and comprehensiveness of the guide.

Beautiful Photography

Over 1,000 high-quality photographs vividly depict the trees and shrubs in their natural habitats. These stunning images capture the intricate details and diversity of the region's flora, making identification effortless.

User-Friendly Design

The field guide is organized alphabetically by scientific name, with a comprehensive index for easy cross-referencing. Each entry is accompanied by a compact distribution map, providing quick visual information about the species' range.

Additional Features

Beyond the species descriptions, the guide includes:

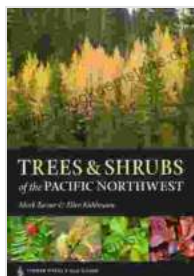

- * An illustrated glossary of botanical terms
- * A photographic gallery showcasing the region's most iconic trees and shrubs
- * An appendix listing plants with ethnobotanical uses
- * A detailed bibliography for further reading

Applications

Whether you're a seasoned botanist, a nature lover, or simply curious about the trees and shrubs that define the Pacific Northwest, this field guide proves invaluable. It can be used for:

- * Identifying and learning about species
- * Enhancing outdoor experiences while hiking or camping
- * Studying the region's ecology and biodiversity
- * Creating botanical gardens or landscaping projects

Trees and Shrubs of the Pacific Northwest is an indispensable resource for anyone interested in the region's remarkable flora. Its comprehensive descriptions, stunning photography, and user-friendly design make it the perfect companion for both amateur and professional botanists. By immersing yourself in this field guide, you'll embark on a captivating journey into the heart of the Pacific Northwest's arboreal treasures.
